

Serving Industries Worldwide

Bearings for Oil Production & Drilling

Manufacturers of Ball and Roller Bearings

SCHEERER
BEARING CORPORATION

Scheerer builds bearings & assemblies to meet the OEM specs of all major equipment manufacturers as well as fully custom solutions for companies in the oil production industry.

Demand the Most from Your Industrial Bearings

Oil production demands the most from equipment and Scheerer Bearing Corporation delivers the uptime reliability that maximizes profit. Our bearings meet the most stringent tolerances ensuring equipment runs at maximum load for peak output.

Full-Service Manufacturer, Refurbisher and Engineering Partner

We are a veteran supplier of the oil industry with bearings in operation in nearly every conceivable environment and climate –land and marine. We provide rotary table thrust bearings, cylindrical radial roller pump bearings, swivel and crane hook bearings and custom machined bearings.

We also provide bearing reconditioning and rebuilding to companies who want to minimize downtime and maximize the lifetime of existing equipment.

A Reputation for Quality, Service and Craftsmanship

Scheerer Bearing has been manufacturing and rebuilding industrial bearings for nearly five decades. We have the knowledge and experience required to service bearings of virtually every category, material and operating environment.

Serving the Petroleum Industry for Nearly Half a Century

Rotary Table Thrust Bearings

Specifically designed with the needs of the oil industry in mind, our rotary table thrust bearings will routinely handle the extremely high thrust loads of modern drilling rigs.

Guarantee

Scheerer Bearing guarantees that any bearing we manufacture or rework is free from defects in workmanship or material. Any bearing which is proven to be defective within one year from date of purchase will be replaced or reworked free of charge if the defective bearing is returned, charges prepaid, to Willow Grove, PA and the bearing is found to have been properly installed, lubricated, and used.

Swivel Crane & Hook Bearings

A complete line of high capacity Scheerer thrust bearings are generally in stock, ready to meet the requirements for quality and performance.

Radial Roller Pump Bearings

Scheerer cylindrical roller bearings are available for most oil drilling, air, water or mud pump systems.

We Routinely Rebuild Ultra-large Bearings up to 100 in. O.D.

Our rebuild capabilities include radial ball and roller bearings, ball and roller thrust bearings from 2 inch I.D. to 100 inch O.D. in many different designs and materials. Scheerer will rebuild any type or style of bearing from any other manufacturer.

You Know in Advance What You Are Getting and How Much it Will Cost

When you send us your bearings, our technicians inspect them thoroughly on arrival. A simplified rating system is used to determine the work needed to restore the bearing's operational parameters and a firm estimate is prepared.

Oil Well / Drilling ***Bearing Interchange***

Following is only a partial list of oil well/drilling bearings manufactured by Scheerer Bearing Corporation. Please keep in mind that we can manufacture replacement bearings for existing and special designs, and provide a direct-replacement interchange to other manufacturers' bearing part numbers. We also offer repair services on these bearings. If you need assistance, please contact us at 215-443-5252.

Scheerer Product Line & Services

RADIAL BALL BEARINGS

Single Row Deep Groove
Double Row Deep Groove
Angular Contact
Double Row Angular Contact
Max-Capacity
Self-Aligning
Four Point Contact
Split Inner Race
Reciprocating
All Special Types

BALL THRUST BEARINGS

Flat seat-Grooved Races
Flat seat-Flat races
Self-Aligning
Banded
Single or Double Acting
Combination
Angular Contact
All Special Types

OTHER PRODUCTS

Combination Radial and Thrust Bearings
Large Diameter to over 100"
All Types of Special Bearings
Hardened and Ground Sleeves
Bearing Components
Slewing Ring Bearings

RADIAL ROLLER BEARINGS

Cylindrical
Single Row
Multi-Row
Cross Roller
Journal
All Special Types

ROLLER THRUST BEARINGS Plain

Type
Washers Only
Self-Aligning
Crane Hook
Combination
Single Acting
Double Acting
All Special Types

SERVICES

Bearing Repair and Reconditioning
Clearance Changes
Bore Tapering
Flush Grinding & Preloading
W-33 and W-26 Feature Additions
Snap Ring Grooving
Inspection Services
Ceramic Ball Installation
Special Coating Applications
